

## *Waxing Disclaimer*

While waxing often has no adverse reactions, it can have certain side effects including redness, tenderness, swelling, minor bruising or slight skin removal. Side effects may last anywhere from 1-2 hours up to one week depending on the clients skin and reaction to the procedure.

For 24 hours after waxing, avoid tight panties (bikini or Brazilian waxes), hot baths, exercise, touching freshly waxed skin, sun exposure, harsh abrasives and lotions or perfume containing strong fragrances, as irritation may occur. And NO SHAVING!

I understand, and have read the above information. I agree that this constitutes full disclosure, and that it supersedes any previous verbal or written disclosures. I have given an accurate account of the questions asked above including all known allergies and/or prescription drugs or products I am currently ingesting or using topically. I give permission to my esthetician to perform the waxing procedure we have discussed and will not hold the esthetician nor Lady Marmalade Beauty Bar accountable for any liability that may result from this treatment. I understand the procedure and accept the risks.

We look forward to seeing you!
